**RE: Monthly Update
Forty Love Point Sewer Improvements**

Dear Ms. Hipp:

This letter is being provided to give an update on the work being performed by Blue Granite Water Company (the "Company") at the Forty Love Point Subdivision in Chapin, SC as required by Commission Order No. 2018-677. The short-term solution to the sewer issues, which involved the installation of individual pump stations at three homes, has continued to perform as designed. Blue Granite Water Company has not received any sewer complaints from the residents since installation of the home pump units in October 2018.

Construction of the long-term solution – a wet-weather lift station – has been completed, and the lift station is operational. The S.C. Department of Health and Environmental Control ("SCDHEC") was on-site on Tuesday, April 30, 2019 to inspect the lift station. On May 3, 2019, SCDHEC provided the Company with a partial approval to place the lift station into operation. Full approval to operate will be obtained upon completion of a fence boundary around the lift station.

If you have any questions or concerns, please feel free to contact me by phone at (803) 960-5405 or email at MRcartin@bluegranitewaterco.com.

Sincerely,

A handwritten signature in blue ink that reads "Michael Cartin".
